

DCB Series

HIGH PRELOAD FASTENERS for AERODYNAMIC APPLICATIONS

Los Angeles, CA: The DCB Series of Double Flush Bolts from Monogram Aerospace Fasteners offers the consistent high preload of a rotary actuated fastener, like the Visu-Lok[®], in a design that accommodates aerodynamic through-fastening of airfoil shapes such as the trailing edge of horizontal tailplanes or vertical stabilizers.

Contact Monogram for additional information or to request a copy of the DCB Procurement Specification.

FEATURES

- ❖ Aerodynamic Double Flush Design
- ❖ Vise-like Sheet Take Up
- ❖ Self Locking
- ❖ Self Inspecting
- ❖ Uses NAS1675 (Visu-Lok) Tooling
- ❖ 5/32 through 3/8 Diameters
- ❖ Titanium and A286 CRES Materials
